## TruckSure Insurance

The TruckSure Insurance programme has been developed to provide exclusive insurance contracts with incredible benefits to truck owners. We offer the personal, tailored service that the multi-national corporates can't.

Trucksure in New Zealand has contracted MultiSure to give you the benefit of a team of people with extensive knowledge of both the Insurance and Trucking Industries. By talking to you about your business and risk management requirements we're able to negotiate the best value, most comprehensive and effective insurance contracts for you and your business.

Unlike some other insurance brokers, we're not locked into any specific provider. We will approach insurers who can match your business' specific risk and insurance needs. We'll ensure they understand your operation and can address your complex and changing needs.

## Claims Management

When push comes to shove, one of the greatest benefits at Trucksure is that we get on your case quickly... and we stay on it.

We make sure the insurance company processes your claim in the shortest possible time.

Our claims management team will work with you and your Insurer to make sure this happens, getting you back on the road where you should be.
